Transferring with TAP

Transferring with TAP makes travelling a breeze. Here's how you can purchase a transfer on your TAP card.

1. Let the bus operator know you want to purchase a transfer on your TAP card and tap your card on the fare box.
2. Wait for direction from the bus operator, and then insert your full fare and transfer amount.
3. Tap your card again on the blue circle. Your card is now loaded with a transfer good for one use within two hours from purchase.

Once you board the bus you are transferring to, simply tap your TAP card and pay any upcharges if necessary (Foothill Transit upcharge information is available below).

Transferring to Metro Rail? Gates at Metro Rail stations only accept TAP transfers.

Single use TAP transfers for the Metro Gold Line are available on Lines 187 and 690 for customers connecting to the Metro Rail in Pasadena. Single use TAP transfers are not valid on any bus. To request a single use TAP transfer, ask the bus operator for a "rail transfer". The one-time use, paper TAP card will only be issued to cash paying customers who request a rail transfer. Unlike the regular TAP card, the single use TAP card cannot be reloaded or reused.

Visit foothilltransit.org/tapcard for more information.
